Subject: 4/26/2301/DOC - BARN AT ARLECDON FARM, ARLECDON

Discharge of conditions 3, 4, 5 and 6 of planning approval 4/25/2270/0F1

Thank you for the above planning consultation.

Environmental Health have been asked to comment on the proposed external artificial lighting scheme for this development.

Whilst condition 4 of the above planning approval specifically refers to the artificial lighting design and bats and sensitive species conservation, the submitted information also references more general guidance for external artificial lighting within guidance produced by the Institute of Lighting Professionals (ILP Guidance Note 9/19).

Based on the information provided, the proposed artificial external lighting scheme would not cause nuisance or loss of amenity to neighbouring residents and so, in this regard, Environmental Health are satisfied with the proposal and do not object to condition 4 being discharged accordingly.

Regards
